

I have enjoyed listening to K-Love for several years. I live in a small mountain town and before K-Love was able to be broadcast by translator, there was no chance for our community to listen to Christian radio. I know hundreds of people who listen to K-Love here in my community, and it would be very distressing to have it removed. K-Love provides family-friendly programming and promotes positive, wholesome values. It is a great encouragement to all who listen, in my community, as well as other areas where it is translated. Please don't remove FM translator service, therefore, removing K-Love from my community. Sincerely, Deb Mahon
